**To Whom It May Concern – Letter of Introduction – Tony Nathan**

I write to introduce Tony Nathan who has relocated to Rotterdam after many years of living and working in Perth, Western Australia where he was a distinguished art photographer, custom photographic printer and artist with an outstanding professional reputation. Nathan's technical expertise and excellent service as an art documentation photographer and art printer are sadly missed by the local art community.

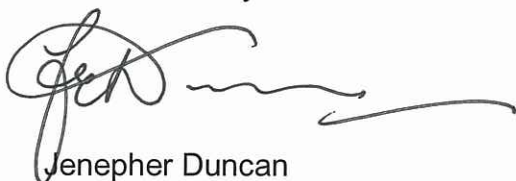

Nathan has been working professionally as a commercial and fashion photographer since 1987, and he has been both documenting other artists' work and making art photography since 1998. Nathan's own photographic work has been included in many group exhibitions in Western Australia, Australia and internationally.

Nathan's practice includes high quality photographic documentation of other artists' work, and in this capacity he has provided exceptional professional service to the Art Gallery of Western Australia, the state's premier public gallery with a major collection of art works. His photography of works in the State Art Collection has been consistently of excellent quality, presented according to the highest professional standards and we regret that his services are no longer available.

As a custom photographic printer, Nathan's meticulous craftsmanship was renowned within the region and he was the first choice of artists, photographers and others who pursued outstanding production values. As an artist himself, he is tuned in to artists and their requirements and this empathetic engagement finds eloquent expression in the superior quality of his work.

I have no hesitation in recommending Tony Nathan as a photographer of artists' work and as a printer practitioner whose professional integrity will be evident to all those who seek to engage his services. I wish him every deserved success in his future activities.

Yours sincerely

Jenepher Duncan  
Curator of Contemporary Australian Art  
Art Gallery of Western Australia
